

ICT-31-2014: Human-centric Digital Age

Project number: 645043

HUMANE

A typology, method and roadmap for HUman-MAchine NETworks

Deliverable D5.2
Online Platform

Editor(s)	Taha Yasseri, Marika Lüders
Lead Partner	OUXF
Version	V02
Date	26/06/2015
EC Distribution	Public

Project Number	H2020 – 645043
Project Title	HUMANE

Title of Deliverable	Online Platform
Date of delivery to the EC	26/06/2015

Editor(s)	Taha Yasseri, Marika Lüders
Contributors	All
Reviewer	All

Abstract	This deliverable presents the initial status of the HUMANE online platform with a project website and Twitter-account.
Key-words	Website, Twitter, blog, dissemination, communication

Versioning and contribution history

Version	Date issued	Description	Contributors
V01	29/05/2015	Wordpress website and blog set up at http://humane2020.eu/ Twitter-account @Humane2020	OUXF
V02	26/06/2015	Deliverable finalized and submitted	SINTEF

Executive summary

This deliverable presents the initial status of the HUMANE online platform with a project website and Twitter-account.

1 Introduction

As part of Task 5.2: Online Presence, a HUMANE website was publicly launched on 29th of May 2015. The website is set up using Wordpress with the URL <http://humane2020.eu/>. The website will serve as the public face of HUMANE with updated information about the project and be a repository of relevant publications in the field of human-machine networks. Additionally a Twitter-account has been set up, @Humane2020.

2 HUMANE website

The HUMANE website will be continuously improved and revised throughout the project period. The structure will remain more or less the same, though the consortium will revise and update the content on a regular basis.

We need to make the web-site more engaging, and immediately highlight what is special and particular with human-machine networks, and how these are relevant in most aspects of contemporary lives. This means we need to revise and update the front-page of <http://humane2020.eu/> (se Figure 1).

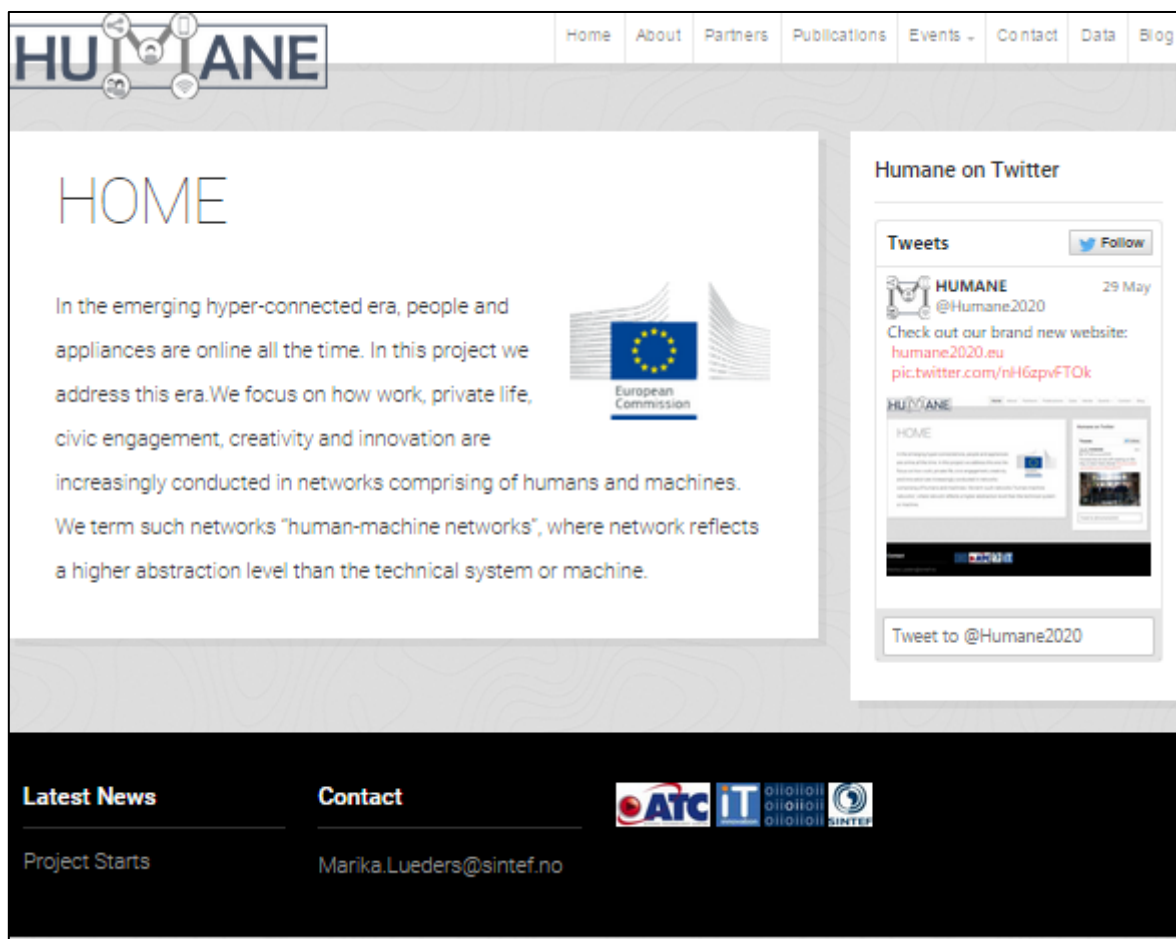

Figure 1: Current front-page of the HUMANE website.

The About-page presents the background and motivation for the project (see Figure 2).

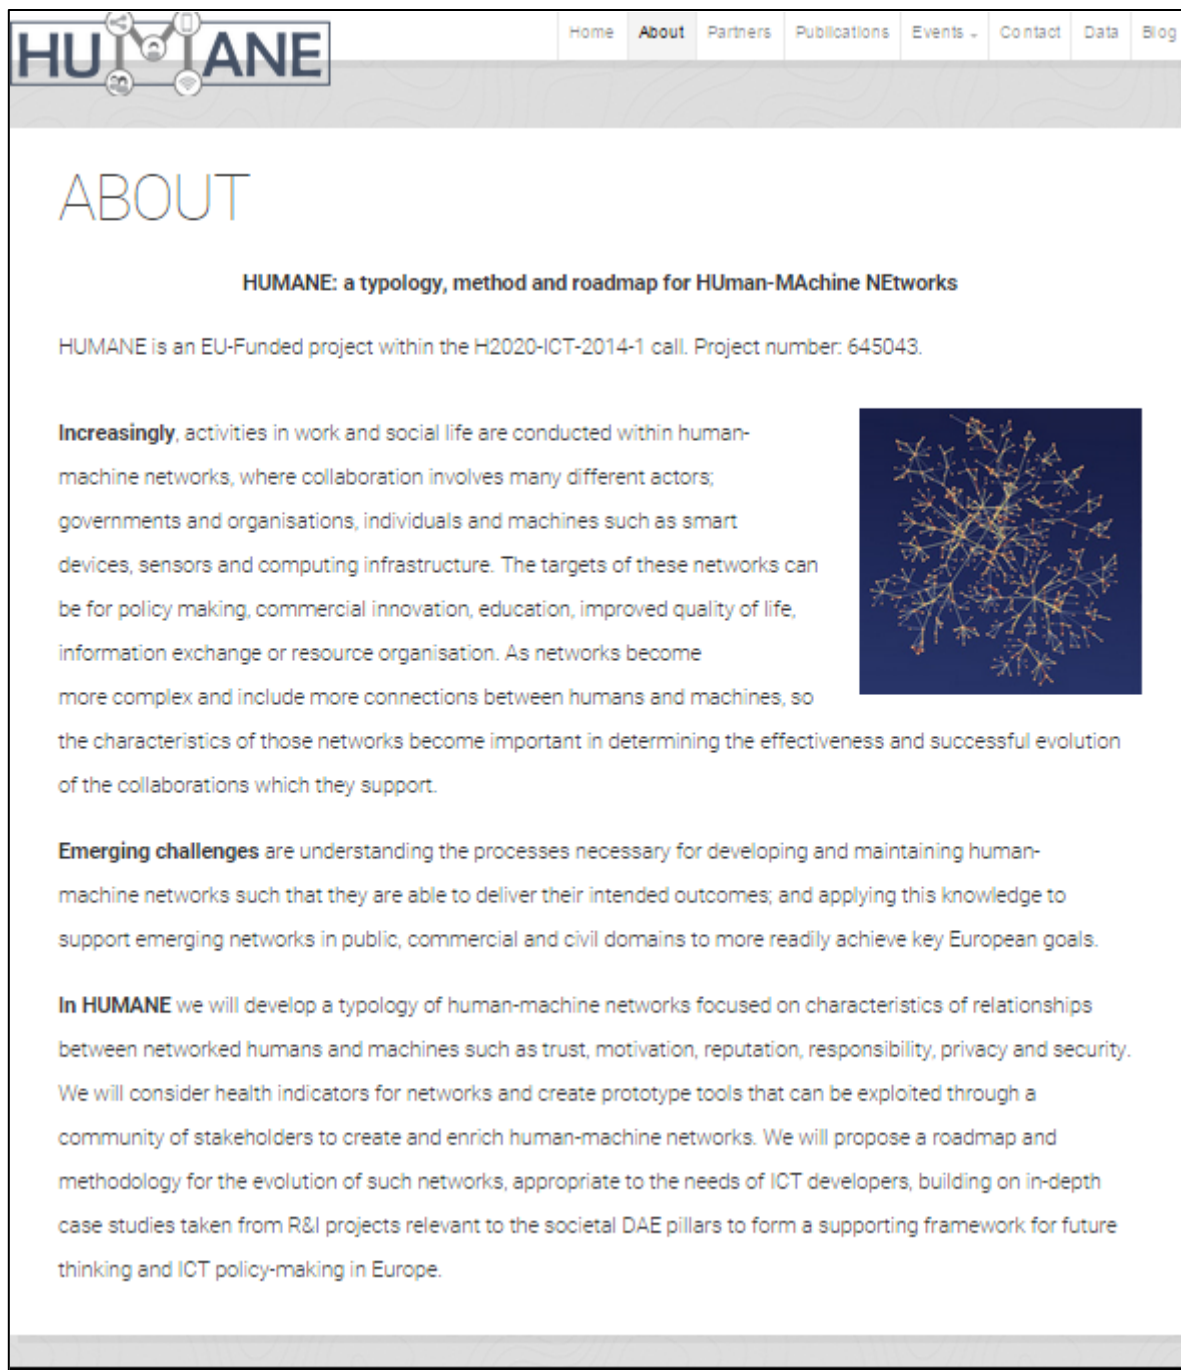

Figure 2: HUMANE About page.

The HUMANE partners are presented on the Partners-page (see Figure 3). Both Partner-headings and Partner-logos are links to the websites of the different partners.

PARTNERS

SINTEF

SINTEF, 'The Foundation for Scientific and Industrial Research', was established in 1950 and is the largest independent research organization in Scandinavia. With a turnover of 350 M€ in 2010 and approximately 2100 employees, of whom more than 700 holding a PhD degree, the SINTEF group generates knowledge and solutions for customers in the following fields: Health, information and communications technology, marine activities, materials science and applied chemistry, petroleum and energy, technology management and building and construction.

ATC

Founded in 1987, ATC is an Information Technology Company (SME) offering solutions and services targeting specific sectors incl. the Media, Banking and Retail Sectors, Utilities and Public Sector Organisations as well as horizontal solutions focusing on Content Management, Enterprise Software, Web Applications, Human Capital Resource Management and eLearning, and Mobile Applications. The activities of the Company span among several countries in EU, Eastern Europe and CIS countries, as well as the Balkans.

OII

The Oxford Internet Institute was founded as a department of the University of Oxford in 2001, as an academic centre for the study of the societal implications of the Internet. The OII's research faculty, academic visitors and research associates are engaged in a variety of research projects covering social, economic, political, legal, industrial, technical and ethical issues of the Internet in everyday life, governance and democracy, science and learning and shaping the Internet. The OII has developed its own unique DPhil programme in Information and a MSc in Social Science of the Internet.

IT Innovation

The IT Innovation Centre is an applied research centre advancing information technologies and their uptake in industry, commerce and the public sector. Part of

Figure 3: HUMANE partner presentations

HUMANE publications will be listed on the Publications-page (see Figure 4). This includes journal- and conferences papers as well as public deliverables.

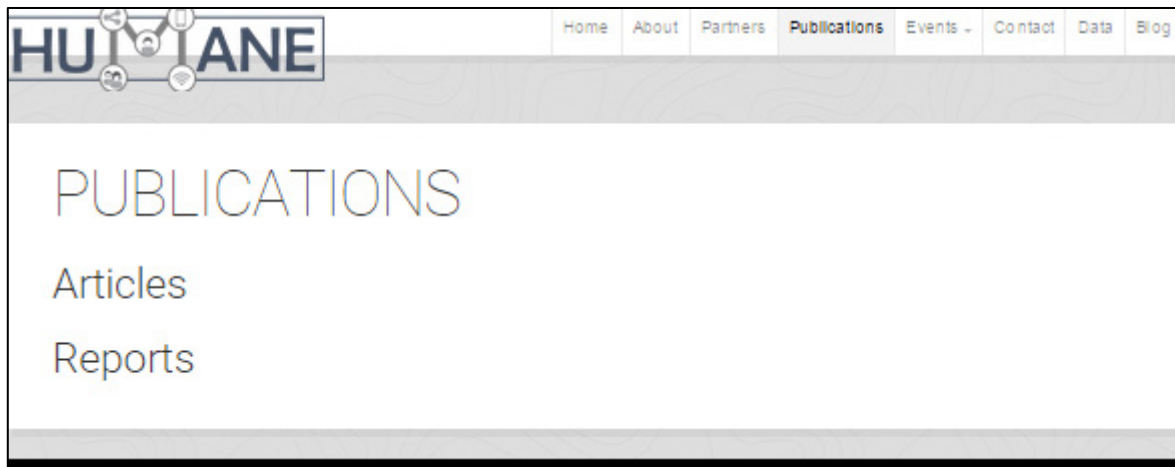

Figure 4: HUMANE publications.

Brief descriptions of and links to relevant conferences and events will be regularly updated on the Events-page (see Figure 5).

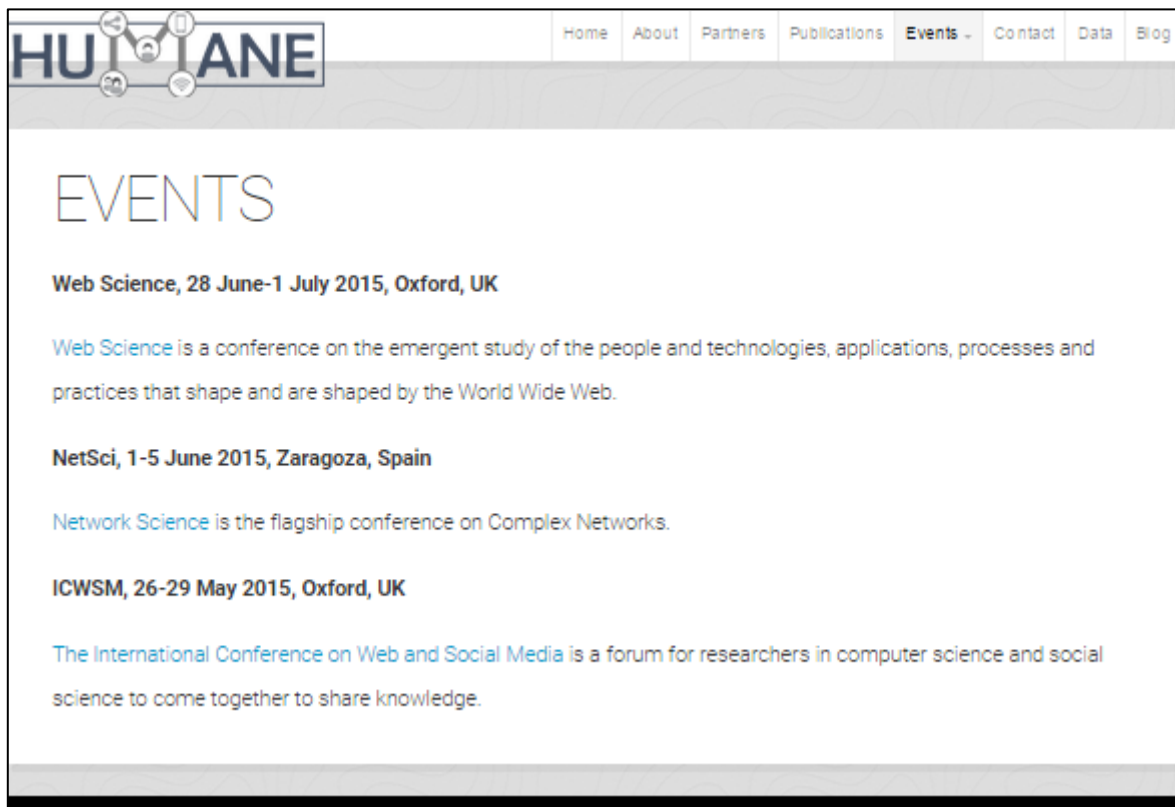

Figure 5: Events-page

Contact information to the HUMANE PO is provided on the Contact-page (see Figure 6).

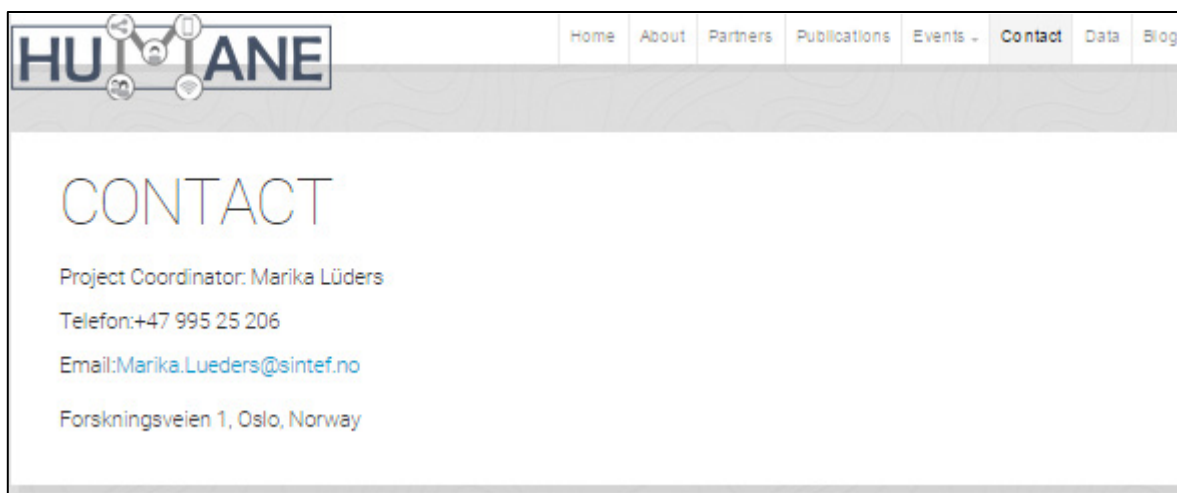

Figure 6: HUMANE Contact-page

HUMANE is part of the Open Research Data pilot. We will hence make the research data available in a research data repository to make it possible for third parties to access the data. The research data will be archived at the Norwegian Social Science Data Services to ensure re-use in future research projects. Explanation of the availability of the data as well as links to the data repository will be included in the HUMANE Data-page (see Figure 7).

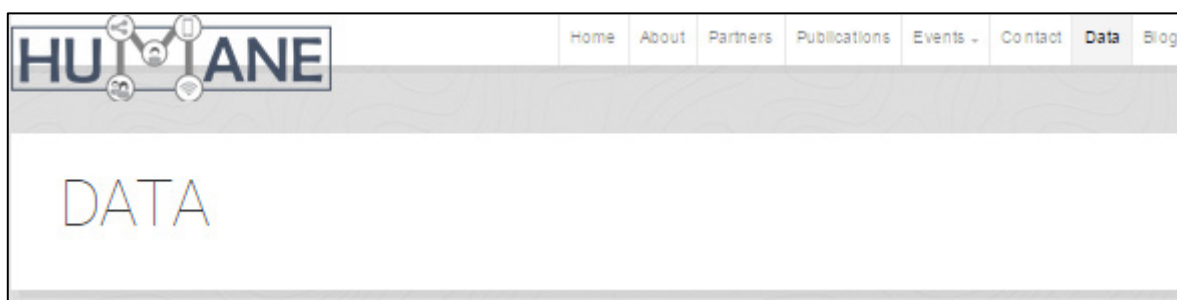

Figure 7: HUMANE Data-page.

A project-blog will be regularly updated on <http://humane2020.eu/blog/> (see Figure 8).

3 @Humane2020 – HUMANE on Twitter

A Twitter-account has been registered with the user-name @Humane2020 (see Figure 9). HUMANE-partner OUXF will have the main responsibility for updating @Humane2020, yet all project-partners have access to the Twitter-password and are expected to share the responsibility with OUXF.
